

To whom it may concern:

Please do NOT nullify the no-call list. Although I am currently on the no-call list, I still receive several calls per day from solicitors. When I was not on the list, I could receive more than ten calls per day!!! I have been harassed, hung up on, sworn at, etc... I once had a caller repeatedly call my home; after I had told him I was not interested, said goodbye, and hung up the phone. He finally would not hang-up on his end, so I was unable to make an outgoing call for several minutes. Given that I am the one paying for the service, I should think I have the right to decide who I do NOT want calling me at my home. I appreciate your time and consideration, in addressing this important issue.

Sincerely,

Dawn Carberry
